Greetings

Welcome to Evening Shade Farms,

Our family has lived on this farm, located just south of where the Ozarks meet the plains, for more than 30 years. We have been good stewards to this land and are deeply committed to sound environmental practices —for we know nature provides all and holds many answers to healing.

This path I have traveled more than 50 years has a purpose, is rewarding and gives me the opportunity to share some of the wisdom I have obtained, And, in a small way, give back to mankind.

I feel much gratitude and good fortune to be able to raise and provide most of the ingredients used in our all-natural products. Knowing the flowers and herbs are grown naturally to ensure they are harvested at just the proper time, gathering from the wild with respect, assuring renewal year after year, are commitments we hold dear. Experiencing companionship and caring for our goats who provide rich creamy milk and managing and reaping the nourishing golden honey from our bees secures that only the finest ingredients are used in these products.

We will never be a big business. For how could you put your soul and a lifetime of learned and acquired skills into an employee manual? Big is not always better!

Our sole purpose in this endeavor is to provide skin care products that truly nourish your skin.

We employ none of the synthetics so commonly found in body products — often harmful and encouraging skin problems. We formulate and make all the products, nothing is farmed out, bulk commercial products are never repackaged with our label affixed. Our products literally start from the ground up — hand made, hand cleaned, hand packaged — all right here on the farm.

We are known for our integrity, creativity and our outstanding quality. We personally thank you for your support and know we owe our success to you, our customers and friends. For those of you who are new to our products, and for those of you who know them quite well, find a quiet nook, relax a few moments, read through the catalog and get ready to pamper your skin in a most glorious way.

Hand making all natural soaps and body products has been a rewarding family tradition for four generations. Evening Shade Farms thanks you for helping make this possible!

An investment in our products is an investment in yourself.

Soaps

Each bar of soap from Evening Shade Farms is handmade using only the finest natural ingredients. Most ingredients are cultivated right on our farm so that we may ensure pureness and that only the highest quality ingredients are used in our products. Our soaps contain no synthetic melting agents and are aged a minimum of 30 days to provide you the affordable luxury of a long-lasting bar.

There is beauty in every bar!

Olive Oil Soap

Our *Olive Oil Soap* reigns Queen of bathing essentials. This handmade beauty bar has been a favorite for more than two decades. A special moisturizing formula and blend of nourishing and delicate floral-scented essential oils leaves skin soft, silky and thoroughly cleansed. Men who have not abandoned the brush for shaving tell us this *Olive Oil Soap* gives a rich lather and softens skin for a smooth shave. Gentle enough for babies. *Normal to dry skin.*

Lemon Cream Soap

Enjoy the fresh, clean essence of citrus oils in this creamy-lathering moisturizing formula. Enhanced with skin-nourishing Vitamin E, our *Lemon Cream Soap* leaves your skin soft and moisturized. (Great in the summer months as it contains a bit of citronella oil to help ward off those pesky mosquitoes and black flies.)

Milk and Honey Soap

Our girls (the four-legged variety) provide fresh goat's milk for this mineral and enzyme-enriched soap. Additions of honey from our bees and exfoliating oatmeal make it perfect for oily, combination and acne skin. A special aromatic blend of essential oils tightens and tones skin pores. More than 25 years ago we formulated one of the first goat milk soaps on the market. (I have dry skin and love using this soap frequently as a facial scrub followed by Petals, my favorite moisturizer.)

Sampler Pack Soaps

Each *Sampler Pack* includes a 1.5 ounce bar of Olive Oil, Lemon Cream and Milk and Honey Soap. The *Sampler Pack* makes a unique gift and is a great way to try each of these skin-friendly soaps. Comes wrapped with a colorful ribbon.

Soaps

Sweet Grass with Green Tea Soap

Sweet grass has no fragrance until it is dried. Then its aroma reminds you of a warm vanilla scent — add the green tea and you have a rich lather that nourishes dry skin. A unique treat!

Balsam Pine Tar Soap

You'll benefit from the medicinal properties used in this blend. By lathering it on the affected area and letting it dry the pine tar and balsam oils quickly relieve any itch from poison ivy or insect bites. Also an effective treatment for severe acne, psoriasis and eczema. Long-term use should be alternated with one of our moisturizing soaps to maintain *Balsam Pine Tar's* effectiveness and to help alleviate any drying effect. No longer readily available, you'll find our *Balsam Pine Tar Soap* as effective today as it was long ago.

Caravan Soap and Cologne

Lather up and journey to the desert. This fragrant blend of essential oils will arouse your senses to the sand, sunsets and finally you are there — a fertile oasis. The mysteries of the Sahara are brought to life with Caravan. Cologne available in 2 oz. brushed aluminum spray. This goat milk-based soap is soothing to any skin type.

Country Garden Soap

This creation came to me one summer day as I was picking carnations. You'll be enveloped in the harmony of a summer garden with a sweet-spicy aroma and a melody of rich nourishing lather. Normal to dry skin.

Lemon Grass Soap

Golden swirls of carrot powder enrich the intense lemon fragrance of this refreshing soap. A good toning bar for oily or dry skin.

Savon de Clay Soap *(Sea-rich mineral facial mask)*

Enjoy the deep-cleaning effects of a spa facial mask with this all-natural French Clay Facial Soap. Tightens, refines and tones skin pores leaving skin soft and radiant. Cleansing *Savon de Clay Facial Mask Soap* clears away dead skin cells and is excellent for oily or combination skin. Use less frequently for normal or dry skin.
