Hand-Made Soaps and Body Products

My soaps are made by hand in small quantities using an open kettle process. This takes much time, but is the only way to have a truly natural soap.

During the soap-making process natural glycerin is created. The conditioning and moisturizing properties of glycerin are unsurpassable. Commercial soap manufacturers remove glycerin and sell it as a by-product. My soaps contain all their glycerin. Because glycerin readily absorbs water from the air, it protects skin against dehydration, and helps skin maintain optional moisture balance.

I use no synthetics, dyes or perfumes. A combination of essential oils has been blended into each formula for their healing properties and delightful fragrances. Spring or rain water is used in each formula. The lather is dense and penetrative. These soaps are gentle and recommended for the most sensitive skin. Every bar is hand-made by me, at the farm. For a longer lasting bar, unwrap soap and leave in air 24 hours before use.

Olive Oil Soap

Our Olive Oil Soap reigns Queen of bathing essentials. This handmade beauty bar has been a favorite for more than a decade. A special moisturizing formula and blend of nourishing and delicate floral-scented essential oils leaves skin soft, silky and thoroughly cleansed. Men who have not abandoned the brush for shaving tell us this Olive Oil Soap gives a rich lather and softens skin for a smooth shave. Gentle enough for babies. Normal to dry skin.

Lemon Cream Soap

Enjoy the fresh, clean essence of citrus oils in this creamy-lathering moisturizing formula. Enhanced with skin-nourishing Vitamin E, our Lemon Cream Soap leaves your skin soft and moisturized. (Great in the summer months as it contains a bit of citronella oil to help ward off those pesky mosquitoes and black flies.)

Milk & Honey Complexion Bar

Our girls (four-legged variety) provide fresh goat's milk for this mineral and enzyme-enriched soap. Additions of honey and exfoliating oatmeal makes it perfect for oily, combination and acne skin. A special aromatic blend of essential oils tightens and tones skin pores. Fifteen years ago we formulated one of the first goat milk soaps on the market. (I have dry skin and love using this soap frequently as a facial scrub followed by moisturizer.)

An investment in our products is an investment in yourself.

MAIL ORDER FORM

Thank you for selecting my natural soaps. We usually ship within 48 hours — but please remember, these soaps are handmade, not an assembly line product.
